

BUILDERS COMING ON ALL HANDS FOR CONVENTION HERE

Meeting at Continental Hotel Will Discuss Plans for Improvements.

Delegates from the builders' exchanges of a number of cities are coming into Washington on every train today to attend a convention out of which it is proposed to form a permanent national association of builders' exchanges. The first session of the convention will be held at the Continental Hotel, where the headquarters are, this afternoon. Attendance is not expected until tomorrow night.

Delegates from Philadelphia, Baltimore, Norfolk, Richmond, New Brunswick, N. J., West Orange, N. J., and Washington reached headquarters this morning.

The purpose of the organization committee, of which John R. Galloway, of the Washington Builders' and Manufacturers' Exchange is a member, is to bring the building trades organizations, builders' exchanges and employers' associations of the country together in a national organization.

On the program for discussion prior to the formation of the organization are a number of subjects concerning the building of the country. The establishment of labor bureaus, such as that conducted by the Washington exchange, are to be recommended. It is proposed to leave relations with labor to the local exchanges, but to provide assistance in case of trouble.

A department of legislation and the establishment of trade schools are to be proposed.

The officers of the first National Association of Builders' Exchanges, which it is proposed to recommend, are: Franklin M. Harris, Jr., of Philadelphia, president; G. T. Stafford, of Birmingham, Ala., first vice-president; W. B. Lanning, of Evansville, Ind., second vice-president; Alexander E. Pearson, of West Orange, N. J., secretary, and John Atkinson, of Philadelphia, treasurer.

Aluminum Trust to Profit by Compromise

Special Attorney Chatland, prosecuting the Government's suit against the so-called Aluminum trust and tin plate manufacturers, came to Washington with the officers of the alleged trust today to arrange a compromise of the suit.

It has been the policy of the Department of Justice to bring about amicable adjustments of these suits through dissolution in accordance with the decrees of the Supreme Court in the Tobacco and Standard Oil cases where possible. It is believed that a compromise will be effected as a result of today's conference of the trust officers with Assistant Attorney General Fowler.

IRISH SOCIETIES TO HOLD R. EMMET WITH SONGS AND SPEECHES

Elaborate Plans Made for Celebration to Be Held Next Sunday.

The United Irish Societies of the District of Columbia are planning to hold at the New National Theater next Sunday night the greatest demonstration in honor of the birth of Robert Emmet that the combined organizations have ever held. The speakers will include the following members of Congress: J. M. Curley, of Massachusetts; R. E. Connell, of New York; N. E. Kendall, of Iowa; Joseph Taggart, of Kansas; and Charles C. Carlin, of Virginia. Charles C. Bowers, secretary to Senator Kern, of Indiana, will also make an address.

The musical program will comprise two numbers by the Ladies' Hibernian Choir, comprising fifty voices, under the direction of Mrs. Nellie Brown Keller, and solos by Miss Emily Dittie, Mrs. Kelsner, Miss Mary Moran, John M. King, of New York, and Thomas Evans Green, well known as a singer of Irish ballads.

The New National Theater has been reserved for the celebration, and the committee on arrangements, headed by Patrick T. Moran, expect to fill the 1,400 available seats. The proceeds will be given to St. Anna's Infant Asylum.

William J. McEvoy is chairman of the publicity committee. Patrick T. Moran, as chairman of the committee on arrangements, will be assisted by Hugh J. Murray, Patrick J. Halligan, Frank O'Mara, an about forty other members of Irish societies.

DR. JAEGER LEAVES POST AT CASUALTY HOSPITAL FRIDAY

Will Affiliate With Some Institution in New York City.

Dr. Henry W. Jaeger, connected with the Casualty Hospital for nearly a year and a half, and for the last six months head physician at that institution, has tendered his resignation from that position, effective Friday. Dr. Jaeger will go to New York the first part of next week, where he will affiliate himself with a hospital in that city. He has not definitely decided with which institution he will be connected.

One of the most popular of the young physicians in Washington, Dr. Jaeger has been a graduate in medicine since last June. Since receiving his degree from the George Washington University Medical School, he has made rapid strides in his profession. Dr. Jaeger is a Washington boy, and is a graduate of the McKinley Manual Training School, as well as of the George Washington University.

His departure from Washington is regretted. He will be succeeded as head physician at Casualty Hospital by Dr. C. C. Craft, now on the resident staff of the George Washington University Hospital.

Lenten Lecture.

The first of the annual series of Lenten lectures, under the auspices of the Churchmen's League, will be given tonight at 8 o'clock in the Church of the Epiphany. The speaker will be Rt. Rev. G. Mott Williams, bishop of Maryland. He will deliver "The World-wide Responsibility of Churchmen."

LACK OF LEADERS HOLDS IN CHECK BOY SCOUT WORK

Volunteers for Service Are Needed to Keep Movement Going.

Despite the rapid progress being made by the Boy Scouts of Washington, the organization is being held back by a lack of scout leaders. The officials of the movement believe that fewer men volunteer their services as scout masters because they do not understand the duties of the office.

"A scout master must primarily know boys," it was stated at headquarters this morning. "Knowledge of boys and real interest in them are the requisites of scout masters." If a man can spare two hours one evening a week, and can take the boys on a hike on holidays, or occasionally on off days, he can qualify as a scout master. It is work to which a man can give practically all his time, but if he is anxious to get into the work, and yet has very little leisure, he can perform the minimum requirements in two hours a week, plus the occasional cross-country trips. Friday or Saturday night is preferable for troop instruction, although some of the troops meet early in the week.

The position of scout master calls for gratuitous service; but the thirty young men in Washington who are now serving in this capacity seem to have found ample compensation in the fun they get out of handling groups of twenty or thirty boys.

The troop at Fort Myer was reorganized yesterday. This troop had been without a leader for some time. One or two new troops will be organized this week, providing the vexatious problem of finding scout masters is solved.

MCABE HAS TILT WITH ENGINEER AT EVERGLADES PROBE

Solicitor Asks Witness About Alleged Favors From Elliott.

With but two members of the committee sitting as investigators, Arthur E. Morgan, of the Morgan Engineering Company, of Memphis, continued his testimony today before the House committee investigating the Everglades controversy. The hearing was of a routine character, except for occasional differences between the witness and Solicitor McCabe, who conducted the cross-examination on behalf of the Agricultural Department.

Mr. Morgan, now engaged in private contract work, and also on the per diem roll of the department, was formerly on an annual salary. Solicitor McCabe attempted to show that C. G. Elliott, recently deposed drainage engineer, had aided Morgan's firm when answering inquiries sent to the department concerning drainage work.

"You have testified," said the solicitor, "that you considered Maj. J. C. Wright incompetent, but that you considered Mr. Elliott an engineer with a national and international reputation." "I have," said the witness. "Do you think you are in position to give impartial evidence along this line?" "I do," said Mr. Morgan. "Is it not true that since you left the department Mr. Elliott has thrown you nearly all your work?" "It is not," said Mr. Morgan. Morgan also denied any knowledge of the alleged fact that the literature of the Morgan Engineering Company had

BABY'S HEAD SORE ITCHED AND BURNED

Hair Most All Came Out. Could Not Get Anything to Heal. Used Cuticura Soap and Ointment. Hair Began to Come Back. Now Well.

Alum Ridge, Va.—"My baby was about two months old when his head got sore. It first came as hard white lumps, and they seemed to itch and burn. His head was sore and his hair most all came out. The child was very cross and I did not get a night's rest until I got a sample of Cuticura Soap and Ointment. I used them and his head began to get better, so I bought some Cuticura Soap and Ointment. I washed his head every night with Cuticura Soap before retiring and after letting it dry I applied the Cuticura Ointment. The running sores began to heal over and peel off, and the baby's hair began to come back and now his head is sound and well. The child has real pretty hair. I feel that I cannot praise Cuticura Soap and Ointment enough." (Signed) Mrs. E. M. Reed, Nov. 27, 1911.
